

## RoboVent FabPro Fume Collector

### ***The RoboVent FabPro fume collector — plug-n-play protection!***

The RoboVent FabPro fume collector is a unique and simple solution for welding smoke issues. The unit operates on the "Back Draft" principle, which is the preferred method of capture according to ACGIH. Simply place the unit behind the welding operation and you're ready to go! There is no need for ductwork, just connect the power, and a compressed air hose. The RoboVent FabPro pulls the smoke from as far as 30" away, filters it out of the air, and returns clean air to the plant. The unit features a reverse pulse cleaning system to extend filter life, and can be configured to either stand on the floor, or hang from the ceiling to save floor space.

- Powerful, 2 HP blower, 1500 CFM @ 4" W.G.
- Heavy-duty construction, powder coat finish
- Quiet operation
- Built-in spark arrestance
- Built-in pulse cleaning (filter back-flush)
- One year filter life guarantee

Model MBDFM-1500-1

Model MBDFM-1500-1

## RoboVent FabPro : Optional Configurations

RoboVent FabPro  
FloorMount  
**MBDFM-1500-1**

- 2 HP Motor, 230/460 Volt, 3 Phase
- Floor mount configuration
- Includes fork pockets
- Dimensions: 24" W; 33.5" D; 74"H

RoboVent FabPro  
FloorSaver  
**MBDFS-1500-1**

- 2 HP Motor, 230/460 Volt, 3 Phase
- Wall or ceiling mount configuration
- Wall brackets not included
- Saves floor space
- Dimensions: 24" W; 33.5" D; 71"H

RoboVent FabPro Fume Extractor.

The Model  
MBDFS-1500-1 can  
be hung from the  
ceiling to save floor  
space.
